Metal

Faux Cherry Stone/Antique Brass

This striking obelisk is crafted from painted metal that mimics the look of stone, giving it a timeless and elegant appeal. The structure is segmented, creating a brick-like effect that enhances its classic aesthetic. The obelisk is adorned with intricate metallic embellishments in a warm brass tone, including ornate gears and shield-like plaques with detailed engravings, lending it an air of sophistication and historical charm. Standing tall on a sturdy base, this obelisk is an excellent decorative piece, ideal for adding a touch of grandeur to any space.
