Otis Mirror Blackened Bronze

Meet Otis—the mirror that refuses to sit quietly on the wall. Its convex shape bows outward for a playful, space-widening effect, turning everyday reflections into a proper design moment. The blackened bronze frame lands in that sweet spot of warm and neutral, so it layers easily while still feeling distinct. Finished with an aluminum frame, mirrored glass, and an MDF back panel, Otis brings bold perspective—without making the room work harder.

- Bold Convex Profile: An outward-curved silhouette adds depth and personality, turning a functional mirror into a design-forward focal point.
- Mixed-Material Make: Aluminum framing, mirrored glass, and an MDF back panel keep the piece feeling clean-lined, sturdy, and ready for everyday spaces.
- Modernist, Not Loud: The blackened bronze finish reads warm and neutral, so it pairs easily while still bringing a defined edge.
