

# 680W OW SERIES

6.5" 3-WAY FULL RANGE ON-WALL LOUDSPEAKER - 2.75" DEPTH

**(4) 1" (25mm) Beryllium Dome Quad-Array Tweeter**

**(4) 6.5" (165mm) Aluminum Ultra-Slim Woofers**

The On-Wall series of speakers is exactly what you'd expect from James Loudspeaker, high quality audio and durability in a sleek, versatile, on-wall design. The 680w is just one of these multi-use speakers. Boasting a compact, ultra-slim design at just 2.75" this speaker easily integrates into any environment. With the James high excursion proprietary woofers, and an ultra-low distortion beryllium dome quad-array tweeter, this compact speaker offers silky smooth response across a broad range of frequencies from 40kHz all the way down to below 70Hz, with an impressive sensitivity of 96dB. This versatile speaker pairs perfectly with the James SPL6-QBE series to provide a compact surround sound system, delivering crystal clear audio with minimal visual impact. It can also easily be used as a standalone on-wall or bookshelf speaker with or without a companion James subwoofer.

The 680w is constructed entirely of aircraft grade aluminum for strength, sonic performance, and durability, and includes a stainless steel perforated grille to provide years of trouble free use. Blind through holes are incorporated into each speaker for wall mounting or brackets can be purchased separately. For outdoor/marine applications order the 680wM.

Size	40 h x 9.75 w x 2.739" d (in) 1016 h x 248 w x 79.5 d (mm)
Freq Response	70Hz-40kHz±3dB
