THE FIVES II

POWERED SPEAKERS

LEGENDARY AMERICAN SOUND

For more than 80 years, Klipsch has redefined high-fidelity sound, crafting speakers with passion and precision right here in the United States. Following in the footsteps of our founder, Paul W. Klipsch, we pack decades of acoustic expertise into every product, and The Fives II are no exception. The product is a result of our tireless approach to engineering and a never-ending quest for perfect sound, The Fives II embody the spirit of American design: reliable, revolutionary and ready to rock.

Powered by ONKYO

This collaboration with Onkyo infuses hundreds of years of expertise, innovation, and extensive testing protocols. The integration of Onkyo technology into The Fives II Powered Speakers represents a deliberate stride toward perfecting every aspect of sound reproduction. The all-new electronics package inside each pair of Klipsch Fives II Powered Speakers delivers our signature, legendary American sound with the connectivity our customers expect, in an optimized design that makes them more compact and reliable than ever.

DOLBY ATMOS® SURROUND SOUND TECHNOLOGY

Dolby's immersive audio formatting enhances your experience by placing sounds precisely around and above you, creating a realistic, multidimensional surround sound environment, even with two speakers.

BUILT-IN STREAMING

Powered by Onkyo's precise, high-performance technology, The Fives II go beyond HDMI connectivity, letting you stream your favorite platforms, including Google Cast, Apple AirPlay 2, Spotify Connect, Tidal Connect, Qobuz Connect, and more.

ONE-PIECE BMC BAFFLE

The new one-piece BMC baffle is denser and more rigid, stopping unwanted resonance. A curved radius widens the soundstage, improving off-axis sound and producing a more detailed response without masking.

STUNNING RED OAK FINISH

We've added a bold new colorway to the mix. Say hello to Red Oak, a wood veneer designed to catch the eye as well as the ears. The Red Oak finish is paired with a modern white baffle and light-gray removable speaker grilles for a fresh, contemporary look.

DURABLE METAL CONTROLS

A thoughtfully designed control panel on the speaker's top edge allows you to manually adjust volume and source via a metal wheel and button. It offers a satisfying tactile response and effortless control.

BACKLIT REMOTE

Fine-tune the experience or toggle between inputs and sources without breaking the mood using the new remote with convenient keypad backlighting.

SPECIFICATIONS

SYSTEM DESCRIPTION	Powered Monitor (pair)
FREQUENCY RESPONSE	50Hz-25kHz +/- 3dB
MAX OUTPUT	103 dB (1M Stereo Pair)
HIGH FREQUENCY DRIVER	1" (2.5cm) Titanium LTS vented tweeter with Tractrix® horn
HIGH RESOLUTION AUDIO	96kHz, 24-Bit
LOW FREQUENCY DRIVER	5.25" Jet Cerametallic™ woofer
ENCLOSURE MATERIAL	MDF with genuine wood veneer
ENCLOSURE TYPE	Bass-reflex via rear-firing port
WIFI, NETWORK CONNECTIVITY	2.4Ghz/5Ghz 802.11ac (2x2 MIMO) Wi-Fi, 10BASE-T/100BASE-TX Ethernet for network and IP control
BLUETOOTH® SPECIFICATIONS	**VERSION:** Bluetooth 5.4 - **A2DP CODECS:** SBC, AAC
INPUTS	HDMI-ARC/eARC with CEC, Bluetooth®, RCA Phono, RCA Analog, USB-C Audio, USB-A, Optical digital
OUTPUTS	Single RCA line level output for connection to subwoofer, HDMI Output
HDMI SPECS	HDMI 2.1 Pass-Through, 8K, HDR10+, Dolby Vision™, and BT.2020 color; VRR (Variable Refresh Rate), ALLM (Auto Low Latency Mode), and QFT (Quick Frame Transport) passthrough; eARC (Main Out), and HDCP 2.3
AUDIO DETAILS	Dolby Atmos® playback with Virtual Height Channels, Music, Movie, Direct, Dialog Enhancement, 5-Band EQ
DIMENSIONS	12.9" (327mm) H x 7.2" (181mm) W x 10.7" (273.1mm) D
WEIGHT	**PRIMARY:** 18.2 lbs (8.26kg) - **SECONDARY:** 15.5 lbs (7.16kg)
FINISH	Walnut, Ebony, Red Oak
VOLTAGE	100V-240V 50/60Hz internal power supply with region specific power cords
INCLUDED ACCESSORIES	• Region-Specific power cord (2.0m) • Remote control (2x AAA batteries) • 4-conductor speaker cable (4m) • HDMI Cable (1.5m)
COMPATIBLE SPEAKER STAND	Klipsch KS-28
