Type: Bars

Category: Casual Dining

Collection: Orson

Number of Shelves: 3

Number of Drawers: 1

Style: Modern/Contemporary

Finish: Dark Wood

Brand: Modern

Product Description: In a strikingly clean and simple silhouette, the Orson Cabinet is crafted of authentic Mahogany Solids and features 2 louvred-front wood doors with soft-close hinges and magnetic door catches. Finished in a dark Mahogany stain, the cabinet has one tray drawer behind the pair of doors, two adjustable wood shelves behind the pair of doors, one fixed wood shelf on the base and a mirrored glass back panel.

Finish: Dark mahogany finish

Features: Two louvred front wood doors with soft-close hinges and magnetic door catches

One tray drawer behind pair of doors

Two adjustable wood shelves behind pair of doors

One fixed wood shelf on the base

Mirrored glass back panel

Material: Mahogany Solids

Drawer Construction: M offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: M utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: M uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
