## Virtual Surround Technology

Be even more immersed in your movies, TV shows and games with virtual surround sound technology.

Virtual surround sound is built into the C20A to bring extra spaciousness and realism to TV sound by using an innovative sound technology.

## Clear Voice

Have you ever found it difficult to hear TV dialogue?

Clear Voice makes dialogue and human voices more audible, even in movies and programs where background music and sound effects try to take center stage.

## Play Out Loud!

Game sound mode enhances your gaming experience by creating an immersive and detailed player environment.

Connect to a PC or Mac and unlock immersive surround sound action, even at a low volume.

## Built-in Subwoofer

A rarity in the world of compact sound bars, the C20A has a built-in subwoofer, combined with dual passive radiators to provide a rich and spacious bass range.

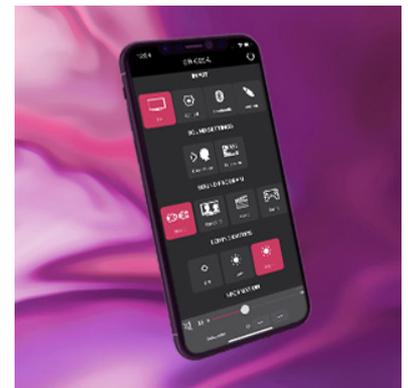

Use the Bass Extension feature for an extra bass boost.

## Sound Bar Remote App

With the newly developed Sound Bar Remote App, it's even easier to control your entertainment.

The app can switch contents, sound modes, Clear Voice and Bass Extension functions, and simple power on/off commands intuitively and easily from your smartphone/tablet.

## Compact Size for Any Space

Coming in at just over 23 inches wide, the C20A is the perfect size to place in front of a desktop, TV or almost any space you have available.

It also features rear keyholes, making it easy to mount on your wall.
