

MONTE BUFFET - COMPLETE

Paired together, the Monte Buffet and Hutch offer a beautiful focal piece for the dining and give the added vertical balance in homes that have taller ceilings. Where the Monte is different from traditional china cabinets is in its casual, open design. Additional details add to the time-honored charm of this unique solid wood piece with its wood framed glass shelves, saw-tooth shelf supports, and framed end panel construction. It is simply a beautiful statement piece.

- Alder

Solid Wood - Made using genuine solid wood construction
