ADDITIONAL TOOLS (Not Provided)

Note: It is not recommended to use power tools during assembly.

Phillips Head Screwdriver

Please do not use tools to assemble this unit unless specifically indicated.

Reference the images above any time the instructions state "lock the hardware".

Note: Be sure to check all hardware is locked when completed.

Step 1. Attach handle (part #6) to front of drawer (part N2) using round head bolts (part #7) and phillips head screwdriver. Attach support rail (part S) to top panel of cabinet (part I2) using long screws (part #10) and phillips head screwdriver.

Step 2. Attach left side panel of drawer (part O2) and right side panel of drawer (part P2) to back panel of drawer (part R2) using small wood dowels (part #1) and lock the hardware. Attach bottom rail of drawer (part Q2) to back panel of drawer (part R2) using small wood dowel (part #1) and lock the hardware. Slide bottom panel of drawer (part K2) into the grooves of left side panel of drawer (part O2) and right side panel of drawer (part P2). Attach front of drawer (part N2) to left side panels of drawer (part O2), bottom rail of drawer (part Q2) and right side panel of drawer (part P2) using small wood dowels (part #1) and lock the hardware.

Step 3. Insert aluminum rods (part #8) into desired place in drawer.

Step 4. Attach side panel of cabinet (part J2) to bottom panel of cabinet (part L2) using small wood dowels (part #1) and lock the hardware.

#1  x 2

Step 5. Attach side panel of cabinet (part J2) to bottom panel of cabinet (part L2) using small wood dowels (part #1) and lock the hardware.

#1  x 2

Step 6. Attach top panel of cabinet (part I2) to side panels of cabinet (part J2) using small wood dowels (part #1) and lock the hardware.

Step 7. Carefully turn unit around, and attach back panel of cabinet (part M2) to top panel of cabinet (part I2), side panels of cabinet (part J2) and bottom panel of cabinet (part L2) using short screws (part #5) and phillips head screwdriver as shown.

Step 8. Attach back top rail (part C), top shelf (part F2), middle shelf (part G2), bottom shelf (part H2), front bottom rail (part D) and back bottom rail (part E) to right side frame (part B) using large wood dowels (part #2), allen bolts (part #3) and allen wrench (part #4).
Note: Do not completely tighten all allen bolts (part #3), until later on.

Step 9. Attach left side frame (part A) to back top rail (part C), top shelf (part F2), middle shelf (part G2), bottom shelf (part H2), front bottom rail (part D) and back bottom rail (part E) using large wood dowels (part #2), allen bolts (part #3) and allen wrench (part #4).
Note: Do not completely tighten all allen bolts (part #3), until later on.

Step 10. Insert the cabinet box into bookcase.
Note: Make sure all allen bolts are not completely tightened, or the cabinet box will not fit inside.

Step 11. Attach cabinet box to bookcase using allen bolts (part #3) and allen wrench (part #4).
Tighten all allen bolts at this time.

- #3  x 4
- #4  x 1

Step 12. Insert drawer into cabinet box.

Note: To release trigger disconnect levers push one side up and the other down.

#9

Safety Strap Kit
1 PC

A

Wall Anchor
A x 1 PC

B

Washer
B x 2 PCS

C

D8*3/4"
Short Screw
C x 1 PC

D

D8*1-1/2"
Long Screw
D x 1 PC

E

Safety Wall Strap
E x 1 PC

SAFETY STRAP WALL ASSEMBLY INSTRUCTION

1) Insert short screw (part #C) through washer (part #B) and safety wall strap (part #E) and screw it into the top center of top shelf (part F).

2) Drill a 11/32" hole where you want to secure your unit. The hole should be at the same height as the hole in the top center of top shelf (part F). Tap wall anchor (part #A) into the hole.

3) Insert long screw (part #D) through a washer (part #B) and safety wall strap (part #E) into wall anchor (part #A).

Note: This item is not intended for clothing storage use.
