KENDALL

The Kendall collection features a transitional modern bedroom set with repeating design elements in a light alabaster finish. The dresser and bed have a stepped-down profile on the drawer fronts accented by recessed rectangular hardware in an aged pewter finish. Showcasing upholstered vertical panels with a rectangular metal accent on the headboard, the panel bed is a statement piece in this collection. For storage, it includes a footboard and bolt-on side rails. The Kendall dresser has six drawers with vertical quartered ash veneer grain. Completing the look is a picture frame mirror with beveled glass and a coordinating stepped-down frame.
