# Avis Horn Inlay Mirror

Some mirrors just reflect—this one speaks. The Avis Horn Inlay Mirror brings a gallery feel to everyday check-ins, mixing pattern with calm, rectangular simplicity. A tessellated horn inlay keeps the frame visually busy in the best way, set over sturdy MDF with mirrored glass at center and an MDF back panel behind it. Each piece shows natural variation, so your "multi" looks like yours, not everyone's. Hang it solo, or stack it into a wall.

- Pattern With Poise: Rectangular silhouette stays simple while tessellated horn inlay adds movement, giving your space a focal point without feeling loud.
- Mixed-Media Frame: Horn inlay sits on MDF for a stable foundation, paired with mirrored glass that keeps the look crisp and bright.
- One-Of-A-Kind Finish: Crafted to highlight natural variation in horn, each mirror lands a little differently—easy to live with, impossible to duplicate.
