Type: Tables, Dining Tables

Category: Casual Dining

Collection: Quincy

Number of Shelves: 0

Number of Drawers: 0

Number of Leaves: 1

Style: Transitional

Finish: Blacks

Brand: PFC

Product Description: The Quincy Double Pedestal Dining Table is a statement piece that elevates your dining room with its distinctive design and timeless appeal. A unique architectural base provides stability and support, while an expandable 18-inch leaf offers flexibility for everyday use and special occasions. The dark Molasses finish on sturdy construction enhances visual appeal and ensures durability for years to come.

Collection Features: Quincy is a smaller-scale, casual, transitional collection with linear, classic silhouettes. Crafted with quartered ash veneers in a molasses finish, the minimalist design is accentuated by a heavy bevel on the pilasters and custom bar pull hardware in a soft bronze finish. Hints of Mid-century modern styling includes architectural elements and beveled case designs.

Status: Active

Finish: The dark tone of the Molasses finish is versatile and pairs well with various décor styles

Features: Sleek, streamlined silhouettes combined with mid-century modern, transitional design elements create a sense of simplicity and elegance

Boasts clean lines and a small-scale profile, making it practical for casual living

An 18" extension leaf can be easily added or removed to adjust the table's size according to the number of guests

Pedestals boast a unique architectural design, adding visual interest and artistic flair

Material: Ash Wood Veneers

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces.

These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
