Notes

This dishwasher is designed to fit a standard dishwasher opening. An opening may be needed on both sides to route plumbing and electrical connections. See marked areas above for water and electrical clearances in base of dishwasher.

To ensure proper drainage, install the dishwasher no more than 12 ft. (3.65 m) from the sink.

Electrical connection should be in an accessible location adjacent to and not behind the dishwasher and within 4 ft. (1.2 m) of the dishwasher's side.
