CARA ELITE WALLMOUNT ELECTRIC FIREPLACE

Product information provided is not complete and is subject to change without notice. Please consult the installation manual for the most up to date installation information.

Minimum Mantel Clearances

WARNING

- When using paint or lacquer to finish the mantel, the paint or lacquer must be heat resistant to prevent discolouration.

note:

Although this appliance is safe to operate with a 0" mantel height, a 2" (51mm) gap between the appliance and the mantel is recommended in order to lift the appliance on/off the rear wall bracket hooks.
