**Product Description:** Modern design meets meticulous craftsmanship with the Archer Sideboard. Appealing both visually and tactually, the sideboard is made of Mahogany Solids with vertical ribbing on the case front doors and drawers. In a warm chestnut finish with gold bar pulls, the sideboard has one adjustable wood shelf behind each door and three drawers.

**Status:** Active

**Finish:** Chestnut finish with gold bar pulls

**Features:** Two ribbed front pocket doors  
One adjustable wood shelf behind each door  
Three drawers

**Material:** Mahogany Solids

**Drawer Construction:** M offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer

sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

**Finish Construction:** M utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** M uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
