**Product Description:** Create a chic and inviting ambiance in your bedroom with our Ashby Place 2-Drawer Nightstand with a USB-C Port. The combination of the marble top, storage drawers, and metal accents creates a timeless yet modern look that complements a variety of interior styles. A built-in USB-C port located discreetly on the back allows for easy charging of electronic devices, providing convenient access without cluttering the tabletop. This nightstand offers elegance and practicality, making it an essential piece of furniture for your living space.

**Collection Features:** Ashby Place displays a sophisticated chic feel with comfortable classic silhouettes, making it suitable for various interior design styles. Quartered ash veneers finished in a soothing neutral gray complement the cool, clean marble and soft silver metal accents. This collection brings a sense of refinement and character to any living space, creating a cohesive and inviting aesthetic.

**Status:** Active

**Finish:** The neutral finish seamlessly blends into various design schemes, working well with bold or neutral color palettes

**Features:** Transitional, chic styling combined with classic elements emphasize simplicity and understated elegance  
Features a marble top, two storage drawers, and a USB-C port, combining elegant design with modern functionality  
Metal ferrules and hardware in a nickel finish add a touch of sophistication to the overall design

**Material:** Ash Wood Veneers

**Drawer Construction:** English Dovetail Drawer Construction

**Frame Construction:** Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
