### Smart Access

## COMPATIBLE WITH THE LATEST APPS AND DEVICES

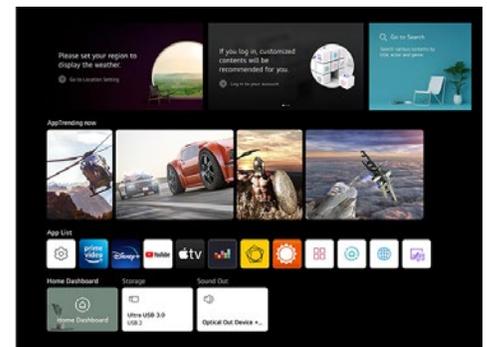

- Disney+, Prime Video, YouTube, Apple TV+, and more are available and easy to access on **webOS 22**.<sup>1</sup>
- **Apple AirPlay & Apple Home compatibility**<sup>2</sup>: Wirelessly control your projector plus stream video from your Apple device or mirror content to your projector, no Apple TV necessary.
- Wirelessly cast content from your Android device to your mega-sized projector screen with integrated **Screenshare**.<sup>3</sup>
- **Bluetooth Audio Dual Out**<sup>4</sup>: Your CineBeam PF510Q projector allows sound just the way you want it. Whether pairing two Bluetooth devices to watch with a friend or amplifying a movie with two external speakers for full immersion, you'll always have full control in any environment.

<sup>1</sup> Internet connection and subscription to streaming services are required.

<sup>2</sup> Your Apple device must be connected to the same Wi-Fi network as your projector. Apple, the Apple logo, AirPlay, Apple TV, and HomeKit (Apple Home) are trademarks of Apple Inc., registered in the U.S. and other countries. This LG CineBeam supports AirPlay 2 (AirPlay) and requires iOS 12.3 or later or macOS 10.14.5 or later.

<sup>3</sup> Supported on Android or Windows 8.1 and above. Android device must be connected to the same Wi-Fi network as your projector.

<sup>4</sup> Compatible with devices that support BT 5.0 or higher.

### Dynamic Display

## TRANSFORM ANY ROOM INTO A HOME THEATER

- **Up to 120-inch of Full HD Resolution:** This Full HD display offers a range of sizes, from an intimate 30" up to an impressive 120". Watch movies or play games in high quality whether you're in a small study or a spacious media room.
- **Auto Vertical Keystone\***: Get the ideal picture—every time. This projector automatically adjusts the vertical keystone alignment, eliminating tilts and distortion for crisp, incredible views.

\* Manual Adjustment also can be used by setting the auto keystone function to OFF.
