The Deanna Raffia Credenza has panels of woven raffia on its door-fronts, sides, and top that are surrounded by strips of Okoume wood in a black finish, matching the credenza's legs. The combination of black and beige bring this credenza a tailored feel that fits within a wide spectrum of design styles, especially a room that exudes Hollywood glamour. The subtle texture of the raffia is a special aspect of this design, as is the fact the credenza is fitted with an inset glass top to protect the natural fibers. Linear door handles and a plinth base are made of metal in a brushed brass finish to bring added elegance to the piece.
