Astoria Horn Box

Diamond pattern gives horn a sharper vocabulary. The Astoria box is wrapped in an all-over diamond stud pattern, giving every surface a graphic, architectural look. Horn brings natural material character, while the MDF insert supports the box's practical interior. The natural finish keeps the pattern rich and grounded, with a generous opening for jewelry, keepsakes, and small objects. Storage, but with a sharper outfit and a stronger surface story.

- Diamond All Over: An all-over diamond stud pattern covers the box, giving the Astoria a graphic, architectural surface from every angle, giving the piece a clearer visual story.
- Natural Horn Character: Horn brings natural variation and depth to the surface, making each box feel richly patterned and collected, letting the material carry the visual story.
- Keepsake Ready: A generous opening makes the box practical for jewelry, keepsakes, and small objects while keeping the look polished, while adding practical purpose to the design.
