

Saltwater Bed - Queen

SKU LL800-32Q-KIT

Description

The posts elevate a low ram's head shaped headboard over side rails that are fitted with a rope detail simulating rope bedding supports that were used during the 18th century. During the period, ropes were tightened periodically as they stretched from use. Thus, the expression "sleep tight" was born. Bunkie board in lieu of traditional boxspring is recommended.

Specification

Width	68"
Depth	86"
