Features

- PrintGuard™ technology introduces a fingerprint resistant stainless finish range hood that seamlessly matches with other stainless-steel appliances in the kitchen
- Stainless Finish is easy to wipe clean from daily messes both externally and underneath, forget the elbow grease
- The scratch resistant finish deters wear and tear on the hood
- Proudly manufactured in the USA by the Leaders in Indoor Air Quality with foreign and domestic components
- The non-vented design provides exhaust recirculation through a charcoal filter to remove smoke and odors when venting through air ducts is not an option
- Includes removable combination grease-charcoal filter
- Rocker switches allow you to manage the 2 speed fan and 1-level lighting separately (up to 75W, bulb sold separately)
- Range hood is installed as hardwired or with an optional power cord kit (HCK44; sold separately)
- Range hood is installed as hardwired or with an optional power cord kit (HCK44; sold separately)

The hood range works great so far! It fits well, very sleek. Color was neutral that blended with the other appliances. Looking forward to putting it to the test more

Perfect size and quality

Clean, beautiful look to compliment new stainless stove... fit orig space perfectly! Replaced my old, yucky exhaust fan.. the look is great and easy to keep clean, the touch controls have worked easily and have not given a bit of trouble to us Overall, I'm very pleased with this product.

Great ventahood

I received this ventahood from Influenster to try. We just moved to a new house and have received several things from Influenster to try that fit perfect in our home. We love this because we love stainless steel products, which this is. We have

a ductless ventahood and this was easy to install. It's a clean finish, easy to wipe down and the fans work well. Not too loud, easy to read buttons/switches too. Highly recommend this!

Easy install

I think this has been such an easy appliance to install. I'm so impressed with how great of an addition it looks over my stove/oven. Functionally, it works incredibly well and is relatively quiet. You can tell when it's on but it is far from distracting or loud.

 This review was collected as p...**A sleek and efficient range hood**

I gave this to my parents since they needed a new range hood. After installation, they were overjoyed by the results! It's sleek, easy to install, and works really well. My parents like how the fan is not overly loud but still does a great job with ventilating when the kitchen gets too smoky. From my parents experience with the BROAN 30inch range hood, they would highly recommend this to anyone in the market for a new range hood.

 This review was collected as p...**Nice range hood**

Overall, I found the stove hood to be quite adequate in functionality and efficiency. It effectively removes cooking odors and smoke from the kitchen, leaving the air feeling fresh and clean. The hood's fan has multiple speed settings, allowing for customizable ventilation depending on the intensity of cooking.

In terms of design, the stove hood looks sleek and modern, adding a touch of elegance to the kitchen. The stainless steel finish is not only aesthetically pleasing but also easy to clean, which is a definite plus.

Installation was relatively straightforward, with clear instructions provided. The hood fit securely above the stove and did not require any additional adjustments or modifications.

Overall, I am satisfied with the stove hood's performance and would recommend it to others. It effectively fulfills its purpose, enhances the appearance of the kitchen, and is relatively easy to install.

Wonderful working stove hood!

Easy unboxing, beautiful product. Once it was hooked up, it ran so nicely! For the price, this product is a steal! Thankful for a chance to upgrade our kitchen at a reasonable price, that looks like we spent a ton! The vent isn't half as noisy as our old vent, and the buttons are easy to find and easy to press.
