

KINCAID

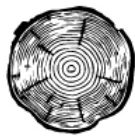

ITEM # 315-910

PARKWAY COFFEE TABLE

Few items can showcase the natural beauty of fine woodworking like a coffee table. As the companion to the sofa, it gets seen as much as nearly any item in the home. This makes it a key piece in the Monogram Walnut collection. With a top measuring 48 inches by 28 inches, the Parkway Coffee Table represents the solid American Black Walnut found in the Monogram collection as well as any piece. The clarity of the finish allows the natural beauty of genuine solid walnut to show through. And as with all Kincaid furniture, it is the uniqueness of every board that makes each piece a one-of-a-kind. In addition to its captivating character, the Parkway Coffee Table also offers a few often overlooked features for a cocktail table. One of those is the deep drawer found on the approach side of the table and the shelf that it creates above it. These added storage spaces are key to an organized living space. Finally, it also includes casters underneath which can be removed if so desired.

- Walnut

Solid Wood - Made
