Apollo Marble Catchall Panther Stone

Panther Stone marble knows its angles. The Apollo catchall pairs a clean square exterior with a carved circular bowl, creating a neat geometric tension in solid Antique Black marble. The smooth interior softens the crisp outer form, making it feel precise, grounded, and easy to use. It keeps jewelry, keys, and small objects gathered while letting natural stone do the talking. Small square, big circle energy.

- Geometry Lesson: A square exterior and circular carved bowl create a clean, architectural contrast in the compact Apollo catchall, so the design feels considered from every angle.
- Antique Black Marble: Solid Antique Black marble brings natural tone, veining, and stone character to a small everyday surface, letting the material carry the visual story.
- Carved To Hold: The smooth bowl interior gathers jewelry, keys, or small objects while softening the catchall's crisp exterior edges, so the design feels considered from every angle.
