

# 1 Connect Posts to Bottom Shelf

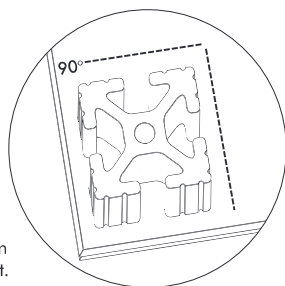

**WARNING:** Tighten by screwing the leveler foot NOT the post.

## A.

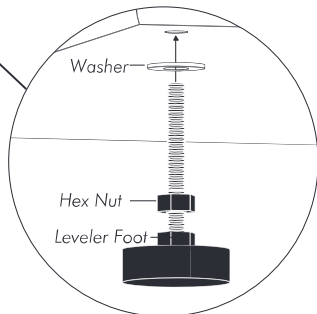

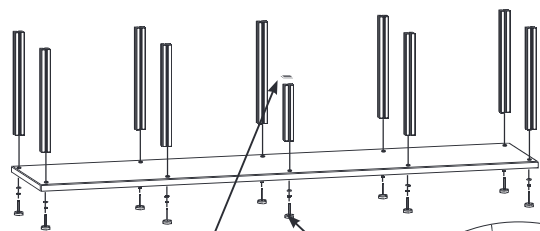

### Square Post

Square the post to the bottom shelf.

## B. Connect Post

Screw foot with metal washer through bottom shelf and onto the end of each extruded post. Place the 8.5" Post front and center of unit. Hand tighten fully and use wrench to tighten nut onto underside of shelf.

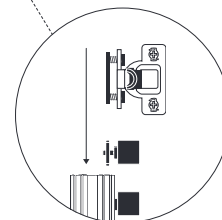

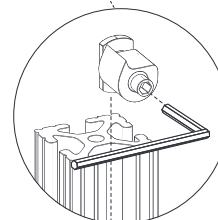

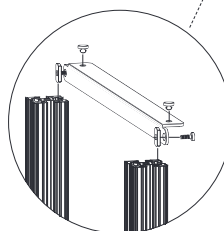

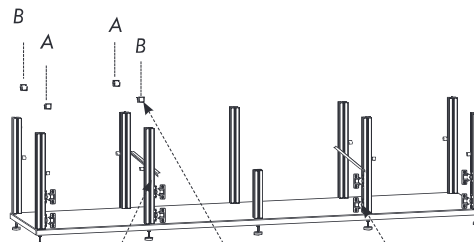

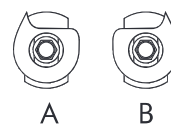

## C. Post Cover

Press post cover onto 8.5" center post to protect the center shelf.

# 2 Add Shelf Pegs & Door Hinges

## A. Group Shelf Pegs

There are two varieties of shelf pegs (A and B). They are designed to cradle the shelf in place. Refer to drawing.

## B. Heavy Duty Bracket

The heavy duty brackets will be used to support the double-width shelf.

## C. Door Hinges & Shelf Pegs

1. Slide the bottom hinge plate through the front post channels. (Doors can be either left or right side opening.)
2. Insert one shelf peg into each post except the center posts.
3. Slide top hinge plate through front post channels.
