POWER MAX SONIC 2

ACOUSTIC TRANSPARENT ELECTRIC MOTORIZED SCREEN

The **Power Max Sonic 2** by EPV® is an acoustically transparent (AT) Ultra-Hi-Def electric/motorized projection screen. Its Sonic White material is designed to complement in-wall speakers while allowing sound to pass through the material with minimal attenuation. It accomplishes superior video performance with negligible loss in sound propagation due to its tight perforated weave 0.9 gain fabric.
