# PROUDLY BUILT AGAINST THE GRAIN

FURNITURE MADE IN THE U.S.A.

After the launch of HGTV's *Home Town*, we were approached by overseas companies for furniture line development with national distribution. Growing up in North Carolina, Ben remembered the small factory towns that had been shuttered and left empty when manufacturing moved overseas. Thinking of the countless, American families who suffered in the aftermath, we knew there had to be a better way to make furniture.

Vaughan-Bassett, the largest manufacturer of wooden residential furniture in the United States, is committed to their hometown of Galax, Virginia, just like we are committed to our hometown of Laurel, Mississippi. We've partnered to create two antique-inspired furniture lines crafted by 600 American workers. LMCo. Home and Scotsman American Heirloom will soon be available in stores across the United States. If we're going to be serious about revitalizing small town America, we have to be serious about making things in America.

# SCOTSMAN AMERICAN HEIRLOOM

Ben Napier and his team worked closely with the craftsmen and craftswomen of Vaughan-Bassett to create ageless furniture. This collection highlights the very best of solid, American hardwood design. The turned posts for the bed and chests are modeled after handmade pieces created in Ben's Mississippi woodshop as seen on HGTV's *Home Town*. In addition to the usual side storage option, the Elder's Bench footboard with deep-set drawers offers a practical solution to expand bed storage. Ben and Erin use seagrass panels to soften the brawny exterior of the solid maple creating a versatile bedroom complementary to any home. Each suite is completed by antique-inspired, step-back chests that Erin uses throughout her own home.

SCOTSMAN AMERICAN HEIRLOOM

## A TREE FOR A TREE

We have partnered with Vaughan-Bassett because they are the largest manufacturer of wooden residential furniture in the United States, yet they are still rooted in the small-town community of Galax, Virginia. It's no secret that their local craftsmen and the surrounding Appalachian forests create a rich environment for company growth and success. For every Appalachian tree that is cut down to build Scotsman American Heirloom furniture, another tree is planted in its place. Together, we are making a sustainable future for America's small-towns, forests and companies.

Growing up a preacher's son, Ben designed the Elder's Bench as a nod to the early American church pew. Available as a footboard or a standalone piece, the Elder's Bench offers practical storage in a functional and beautiful design. With its depth and two working drawers, it's easy to organize Christmas presents, sweaters, heirloom blankets or those things that matter most to your family.

With French dovetails and mortise and tenon construction, each Elder's Bench in the Scotsman American Heirloom line is made from responsibly harvested American hardwoods.

# SCOTSMAN AMERICAN HEIRLOOM

The Scotsman Collection pays homage to the American craftsmanship that originally built Laurel, Mississippi, and that is currently revitalizing it as America's hometown. Built on lumber, Laurel residents know the value of solid wood responsibly harvested from America's forest. Ben and Erin thoughtfully designed this suite with classic lines, an arched headboard and solid wood construction. The turned foot, posts and finials, along with the optional antique railings, ensure that this suite will be treasured and passed down as a family heirloom.
