Coleman Cookout 3 Burner BBQ Grill

Delicious grilled food is made quick and easy with the Coleman Cookout 3-burner gas BBQ grill. Propane gas grills are great on busy weeknights for getting meals on the table fast, and you have precise temperature control for each burner with the turn of a dial. Say you need medium heat for chicken breasts on one-third of the grill and high heat for searing steaks on the other third. This gas grill does that. Instastart push-button matchless lighting system gets you started quickly. Three stainless steel burners deliver up to 31,500 BTUs of grilling power - perfect for burgers, hotdogs, sausages, chicken, fish, ribs, and steaks. Stainless-steel heat plates over the burners offer optimal heat retention and even heat distribution which results in more even cooking and better searing of food. Durable, porcelain cast iron cooking grates provide 420 square inches of cooking space, while the warming rack provides 115 square inches. Monitor it all with the built-in temperature gauge on the lid. The convenient 2-wheel cart has open propane tank storage, integrated tool hooks, and a towel holder, plus 2 side shelves and 2 bottom shelves for holding ingredients. Grilled food tastes better with the Cookout 3-Burner Barbecue.

- Cookout propane gas patio grill with 3 burners and a 2-wheel cart is perfect for backyard barbeques in smaller spaces
