NOTES

-55PH includes a ten-button wired power hand control on the right-hand side of the recliner that allows you to control the lift, reclining, headrest, and lumbar mechanisms independently

Lay-flat mechanism allows you to fully recline for a quick snooze or longer sleeping comfort

Pocket on the right-hand side of the lift chair provides storage for the hand control and other belongings

Removable backs allow for easy lifting and maneuvering through doorways.

-55 includes a four-button wired hand control on the right-hand side of the recliner allows for controlled transitioning between the recline and lift positions

Power mechanisms allow you to smoothly recline to any position, adjust the headrest, and adjust the lumbar support.

Ten-button wired hand control on the right-hand side of the recliner allows you to control the reclining, headrest, footrest, and lumbar mechanisms independently. A single USB port is included on the top of the hand control.

A home feature returns the recliner, headrest, backrest, footrest, and lumbar support to their original positions.

Power allows you to smoothly recline to any position.

A four-button wired power hand control on the right-hand side of the recliner allows for controlled transitioning between the recline and lift positions. A single USB port is included on the top of the hand control.

A home feature returns the recliner to its original position.
