

L9Q

Ultra-short Throw 4K Projector, 80"–200"

Experience the Hisense L9Q Laser Projector—where stunning picture, advanced technology, and world-class sound come together. It features a massive 80"–200" projection size, 4K display with ultra-bright 5000 ANSI Lumens and 5000:1 native contrast, delivering vibrant colours and deep blacks. Powered with Dolby Vision and IMAX Enhanced, the L9Q brings a truly cinematic experience into your home. Audio is elevated through a collaboration with Devialet and the Opéra National de Paris, featuring operatic-grade tuning and a powerful 6.2.2 surround sound system for immersive, theatre-quality sound.

Ultra Short Throw Technology

The Hisense L9Q projector delivers a massive 80" to 200" projection from ultra-short distances—just 2.7 cm (1.06") for an 80" image. It offers easy setup with minimal cabling and delivers bright, clear visuals—even in well-lit rooms. Plus, it eliminates shadows from people passing by, ensuring an uninterrupted, immersive experience.

LPU™ Digital Laser Engine 2.0 (TriChroma)

Hisense's award-winning LPU™ (Laser Processing Unit) Digital Laser Engine 2.0 uses pure RGB triple-laser tech for lifelike colour without filters. Real-time, Pro AI Algorithms optimize brightness, contrast & noise for perfect calibration. Enjoy 25,000+ hours of stunning 4K with vibrant colours, exceptional clarity & theatre-quality immersion

5000 ANSI Lumens Brightness

Experience highly precise and vibrant colours with the advanced M2 Pro's Laser design. Equipped with 28 laser chips, each delivering the power equivalent to 4 LEDs, this technology produces exceptional depth and fine detail for a truly immersive viewing experience.

5000:1 Native Contrast

Embrace the power of a 5000:1 native contrast. Deeper blacks, brighter whites—unlocking a super-wide contrast range that unveils ultimate black and white performance, ensuring subtle nuances during transitions.

Experience Sound Reimagined with Devialet

Crafted with audio pioneer Devialet and the Opéra National de Paris, this exclusive edition blends world-class sound engineering with operatic-grade calibration. The result is professional-grade audio precision for an authentic, immersive experience—perfect for music, cinema, or live performance.

Dolby Vision™ HDR and Dolby Atmos®

Transform your space into a cinematic experience with Dolby Vision™ HDR and Dolby Atmos®. Enjoy brilliant brightness, vibrant contrast, and lifelike detail, paired with immersive, room-filling sound—even overhead. Theatre-grade entertainment you can see, hear, and feel—right at home.

6.2.2 Audio System

Experience immersive, theatre-quality sound with the 6.2.2 audio system, featuring 10 separate, precision-tuned speakers—including dual subwoofers and upfiring channels—delivering 116W of rich, multidimensional audio.

Pantone®-Certified Colour Fidelity & Natural Skin Tones

The L9Q is Pantone® and SkinTone™ Validated, accurately reproducing over 99% of 2,000+ Pantone colours and 110 skin tone shades using the Pantone Matching System. It ensures exceptional colour fidelity and natural-looking complexions—true to the creator's intent and fit for professional standards.
