Elias Beige Medium Planter

2200-0034

In Stock

Overall: 25"h x 14.5"dia.

Finish: Reactive Cream

Materials: Ceramic

Item Weight: 64 lbs.

The Elias Beige Medium Planter is a sizeable garden planter with a surface that looks like it has fissures and craters in it thanks to the incredible reactive cream glazing that was applied after the vessel was fired. There is a mottling on the surface of the tan planter that brings it an incredible texture. The Elias has a drain hole, though the vessel does not come with a plug.
