

KITCHEN VENTILATION SYSTEMS

Wall Mount Hood

XOM - MUA

The XOM is a beautiful combination of glass and stainless steel. The curved design makes an elegant statement in any décor. Available in a wall mount or island mount (XOMI). At XO we believe that good design is something everyone can afford.

What does Make-Up Air Compliant mean?

For the last several years, codes and standards required Make-Up air for domestic range hoods with exhaust rates exceeding a certain limit. The International Residential Code Section M1503.4 and the International Mechanical Code Section 505.2 require Make-Up air for all domestic range hoods in excess of 400 cfm.

State, county and local codes may be more restrictive. Always check with your jurisdiction for specific Make-Up air requirements in your area.
