ITEM # 706-944C

FARMSTEAD CREDENZA

For added storage and office space organization, the Farmstead Credenza is a great supporting piece. Instead of a knee hole this credenza provides a space for a printer that is easily accessible with its added pull out tray. We find this particularly helpful in the never ending cycle of changing printer toner/ink. And unlike printer cartridges, the Farmstead Credenza is made to last for generations.

- New Zealand Pine

Solid Wood - Made using genuine solid wood construction

Electrical Cord Management - Electrical outlets built in for convenience
