

TrueFit® Body Scan

The first time you run a program, Body Scanning will initiate. After scanning, UP/DOWN arrows will appear allowing you to fine tune the shoulder height of the back mechanism, if needed. Wait for the count down or tap OK to start the program.

Once the body scan is finished, you will be brought to the in-use screen and your massage program will start. Use this screen to further customize your massage, if desired.

Voice Commands

This feature allows you to control your chair and massage experience completely hands-free by using one of the many voice commands below. To activate, simply say "Hey Infinity" OR "Hi Infinity". You may now give your chair any of the listed commands within 5 seconds:
