

CONTOUR UPHOLSTERED SIDE CHAIR

As its name implies, the Contour Upholstered Dining Chair is defined by thoughtful shapes. From the tapered aesthetic of the front leg to the comforting curve of the back, this chair is built to make beautiful spaces and lasting conversations. The Contour Dining Chair is designed to sit great and to perform well for years. It is made using solid cherry and includes stretchers to add strength to the legs. And it is upholstered with a soft, performance fabric in a neutral color to offer a little more protection against spills.
