## Blue Framed Painting

Because every room needs a familiar face. This softly brushed portrait captures a dog mid-daydream—calm, content, and quietly charming. Framed in solid wood with a subtle blue finish, it leans traditional with an art deco ease. Muted tones and delicate strokes keep the mood warm and lived-in. Style it solo or let it soften a gallery wall.

- Timeless Portrait, Enduring Companion: A heartwarming portrait of a contented dog, captured with soft brushstrokes and gentle colors that evoke a sense of warmth and happiness.
