**Finish:** Light Wood

**Brand:** Hooker Furniture

**Product Description:** The Driftwood Queen Panel Bed in Buckboard finish evokes the warmth of sun-faded oak. Crafted from oak solids and veneers, this bed features a beautifully designed headboard, footboard, and coordinating rails. The Buckboard finish highlights the natural wood grain and offers a light, rustic charm ideal for casual or transitional spaces. The headboard can also be used independently for versatile styling.

**Collection Features:** Striking a balance between heritage craftsmanship and contemporary versatility, where history and refinement are woven into every detail, the 45-piece Driftwood collection is rooted in authenticity. Revealing a depth of texture and a timeworn patina that evokes the beauty of naturally aged materials, the collection unfolds in three finishes. Buckboard evokes the quiet warmth of sun-faded oak. Worn Saddle is deep and burnished, a nod to the supple leather of well-loved armchairs and hand-tooled heirlooms. And Burnt Timber, dark and moody, carries the quiet drama of wood softened by time and touch. With an emphasis on craftsmanship and enduring style, the Driftwood collection offers a sophisticated yet livable approach to design, reminding us that true beauty—like great design—only grows richer with time.

**Status:** Coming Soon

**Finish:** Buckboard evokes the quiet warmth of sun-faded oak

**Features:** Queen size  
Includes headboard, footboard and rails  
6820-90251-80 Headboard can also be used alone

**Material:** Oak Solids and Oak Veneers

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers

enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
