

BACKBAY ACCENT CHEST - WALNUT

A favorite among our design team, the Backbay Accent Chest is a must have piece in the Monogram Walnut collection. Besides the solid walnut construction, what makes the Backbay Accent Chest most unique is the concave bevel of each drawer front. By carving into the solid walnut, each drawer front creates a space for light to reflect with the character and grain of the wood. This shaping also plays in the overall personality of the chest as the visual lines of the drawers transition from one to the next. At a width of 46 inches and 36 inches tall, the Backbay Accent Chest can be used in a variety of spaces throughout the home. And since it features a flush end panel and leg design, it is also possible to bunch two of these together for larger spaces.
