

STICKLEY®

The cleverly disguised Walnut Grove Recliner has the chic profile of an accent chair, yet it eases from this closed position to extend a hidden footrest, and from there to full recline. Its leather-upholstered seat and back feature a subtle "surfboard" taper and headrest tuck, while black walnut dowels form legs and arms that transition smoothly; a leather armrest pad provides a finishing detail. Available in three semi-aniline Morganton leathers for Express Ship.
