COMFORT SELECT TRACK ARM SOFA

For the best in deep seating comfort and clean styling, may we suggest the Comfort Select Track Arm Sofa. Part of the Comfort Select design-your-own program, this 96 inch long sofa represents several of the best selling selections within the program. Measuring 42 inches in overall depth allows the inside seating depth to be a gracious 24 inches. This coupled with an 18 inch seat height creates a lounging experience that is both comfortable yet supportive. And because it is part of the design-your-own, it can be configured in lengths as long as 108" wide, as a sectional, or even with different style arms. To customize and drape fabric on this sofa, please visit the Comfort Select tool in the Build-Your-Own section. In the 96 inch version (shown here) the sofa comes as a two-over-two seat and back cushion configuration. The larger, 108" size uses a three-over-three cushion layout.

Unitized Frame Construction - Kincaid upholstery features Unitized Frame Construction for stronger, longer lasting upholstery

Lifetime Upholstery Warranty - Our lifetime upholstery warranty covers the frame, springs, and cushions (see full warranty for details)
