Brand: Hooker Furniture

Product Description: Exquisite design details and refined scale come together in the Chatelet Fretback Side Chair to help you create a luxurious but laid-back dining experience. From the diamond-shaped fretwork on the back to the slender shaped legs to the soft amber finish accented by vintage white, this side chair is timeless and unique.

Collection Features: Come home to your little castle. Relax in a livable luxury with Chatelet, a whole home collection inspired by timeless farm style antiques found in "little castles" of Old World Europe.

Status: Active

Finish: A combination of Caramel Froth and Paris Vintage. Pecky pecan veneers are warmed by a soft amber color and a touch of aged white paint to highlight distinctive grains and moldings in the Caramel Froth finish. The Paris Vintage finish is a distressed vintage white with fretwork overlay on select pieces. Distressing includes scraping lines, sloping lines and rasping.

Features: Wood seat

Material: Wood and Resin

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
