

WHITEHALL

STOOL | FOA3544LG-ST-2PK

DETAILS:

A great kitchen island set up needs two things: enough space and storage to work with. This piece does just that. On top is white faux marble material that's both stylish and easy to keep clean. On the side is a large drawer for your tools and utensils. The matching stools come in the same light gray finish with upholstered fabric seats, And don't let the small stature fool you; the table top expands by virtue of the pullout sliding piece that rests on caster legs and tucks nicely underneath the table top. What you get is a kitchen that responds to your needs and transforms to whatever the occasion requires.
