Product Description: With a craftsman flair and quality, the Elon Lateral File is crafted of Flat Cut Walnut Veneers with a satin medium wood finish and dark bronze metal bar pulls. The top drawer is a utility drawer, while the bottom drawer is a locking file drawer with pendaflex letter/legal filing system. Can be bunched with other 1650 Elon office items for a modular configuration or used alone.

Collection Features: How refreshing is it when furniture flexes to your room, your needs and your lifestyle? That's the beauty of our functional modular office groupings. These hard-working configurable work stations and bookcases create a custom built-in cabinetry look.

Features: Two drawers

Top drawer is a utility drawer

Bottom drawer is a locking file drawer with pendaflex letter/legal filing system
Levelers

Material: Flat Cut Walnut Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
