

## Magnolia Outdoor Cafe Table Cream

A table that sets the scene. The Magnolia Café Table pairs a wide pedestal base with a tapered top finished in a Venetian plaster–inspired cream texture. Cast in concrete, its uneven finish adds depth and character, making each piece feel timeless and unique. Suitable for both indoor and outdoor settings, Magnolia makes sculptural design the centerpiece of any gathering.

- Pedestal silhouette: A cylindrical base supports a tapered tabletop edge, creating a sculptural shape that feels both stable and design-forward in any setting.
- Concrete material: Made entirely from concrete in a cream finish, offering long-lasting durability with a surface that can withstand indoor and outdoor use.
- Plaster finish: Hand-textured surface mimics Venetian plaster with intentional variation, giving the table depth, character, and a unique time-worn appearance.
- Versatile placement: Suitable for both indoor dining and outdoor gatherings, designed to bring functional style to spaces beyond a single room.
