

FRAME CONSTRUCTION:

UNIVERSAL frames are made in North Carolina with selected hardwoods and engineered laminates and are guaranteed for life**

Our frame construction features reinforced mortise & tenon joints in combination with reinforced double dowel joints and corner blocks.

Suspension

Universal domestic upholstery features two types of seat suspension

Sinuous Springs

The majority of our upholstery uses 8 & 10 gauge sinuous or No Sag wire springs, featuring up to 25% amount of recycled steel and are used to superior suspension and long lasting quality

Springs are run vertically from front to back and secured with stainless clips and double cover wires

Webbing

High quality synthetic or jute webbing is used on pieces that feature a shaped deck and on many accent chairs where installing springs is not an option or a lower profile is desired

Webbing is applied in a criss cross pattern running both horizontally and vertical on the seat deck or inside back

BACK CUSHIONS:

Universal upholstery features two back options in its made to order upholstery

Standard back cushion fill is constructed with 7 denier blown polyester fiber sewn into a channeled down proof ticking to maintain shape and long lasting durability.

Down Blend Backs

50 % down and feathers/Polyester blend sewn into a channeled down proof ticking to maintain shape and long lasting durability

SEAT CUSHIONS:

Universal upholstery features three seating options in its made to order upholstery

UNI-BLEND:

Our standard Universal upholstery seat features a HR foam core with a soft foam wrap covered in a feathers and down, polyester blend, sewn into a channeled down proof ticking. This cushion will have a soft and casual feel.

ULTRA PLUSH:

Available as an option on most frames, this premium down alternative cushion is crafted with a supportive high resiliency (HR) foam core and innovative 2.5 high density soft foam toppers encased in a down proof ticking.

SPRING DOWN:

Available as an option on most frames, this seat features an Innerspring coil unit with polyurethane foam cap surrounded by ultra-soft, high-resiliency foam and a feather blend wrap

This cushion is engineered to provide ultimate comfort and long-lasting durability.
