Product Description: The Melrose Console Table is a statement piece with its textured plaster-like alabaster finish and tiered, ridge architectural design. This narrow console table is crafted from wood and resin, giving it a sturdy structure. The white finish is perfect for bright, airy interiors, while the unique texture and modern design make it a standout in any room. Ideal for contemporary or minimalist spaces.

Collection Features: Targeting the next generation of furniture buyers, Hooker Furniture unveils the Commerce & Market brand of accent and occasional pieces. Interior designers were front-of-mind when the Hooker Furniture team developed the dynamic palette and flexible applications of pieces within the new brand. The assortment of modern and updated designs presented within the brand include a dynamic variety of materials, styles and color palettes to inject a younger sensibility into the company's portfolio. Commerce & Market consists of pieces for the living room including a variety of accent tables, credenzas, consoles, chests, cabinets, etageres and bar carts. Globally sourced with design inspiration from around the world, the curated designs feature an eclectic assortment of materials including cast metals, bone inlay, marble, stone, travertine, painted glass, acacia solids, pecan, oak, mango wood, and walnut veneers in a variety of rich finishes.

Status: New

Finish: Textured Alabaster plaster white finish

Features: Textured plaster-like finish
Tiered, ridge architectural design

Material: Wood and Resin

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
