Product Description: The Grace Armoire exudes a timeless beauty that seamlessly blends with traditional and glam bedroom decor. Its metallic-like Opulent Opal finish and soft, rounded edges make it a standout piece that enhances the overall aesthetic. Behind two doors are two adjustable shelves and two spacious drawers, allowing you to customize the space to fit your needs. At the base, two additional drawers provide extra storage for items like seasonal clothing or bed linen. This armoire offers practical storage, ensuring all your storage needs are met in one elegant piece of furniture.

Collection Features: The Grace collection has sophisticated traditional lines with soft round corners and a glamorous Opulent Opal finish. The translucent metallic-like finish accentuates the ash veneer patterns. Design details include soft, breakfront cases, metal ferrules and trims and fancy-face veneer patterns on drawer fronts.

Finish: A glamorous Opulent Opal finish adds a touch of extravagance and beauty that elevates the overall aesthetic of any room

Features: A masterful blend of timeless tradition and modern glamour Behind two doors are adjustable shelves with two drawers, and two large drawers are at the bottom for extra storage Gentle curves and rounded edges create a serene and inviting atmosphere Custom acrylic pendant drawer pulls with metal ferrules and trim along the edges offer distinct contrast and a refined appearance

Material: Quartered Ash Wood Veneers

Drawer Construction: English Dovetail Drawer Construction

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat

and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
