## LG SIGNATURE OLED TV

# **OLED W9PUA Series**

LG SIGNATURE OLED TV W9

77" 65"

\* Class size: See below for details.

- Available in 77"
- Wallpaper TV
- LG ThinQ<sup>®</sup> AI | Google Assistant | Alexa
- LG α9 Gen 2 Intelligent Processor
- Dolby Vision<sup>™</sup> | Dolby Atmos<sup>®</sup>

#### DESCRIPTION

Blink and you might miss the thin profile of the aptly named LG Wallpaper OLED TV. At only a few millimeters, it's a level of thinness that only OLED display technology can achieve. A flat screen in the truest sense. Yet it sacrifices nothing in terms of picture quality. The display presents richness in all colors. Perfect black and infinite contrast bring out shadow detail in the darkest scenes. Our most powerful AI-powered 4K processor enhances everything you watch. And the intelligence of LG ThinQ<sup>®</sup> and the voice control of the Google Assistant\* and Alexa\*\* are built-in. It's the TV you've been waiting for.

\*Service limited to certain languages. Some features require 3rd party service subscriptions. \*\*Available via firmware update later in 2019.

#### **KEY FEATURES**

#### 77" + TV (Ultra-Large TV Screens)

Step up LG's Wallpaper TV to a bigger picture from the leaders in OLED. 8.3 million pixels are perfectly suited for a superior view on an Ultra-Large 77" screen — even up close.

#### Wallpaper TV

A profile that's 3.81mm thin. TV and wall become one in LG's radically thin, picture-on-wall design an achievement only possible with LG OLED TV.

#### LG ThinQ<sup>®</sup> AI

The world's most intelligent TVs listen, think and answer to provide the ultimate in personalized entertainment and control over your smart home.

#### LG $\alpha$ 9 Gen 2 Intelligent Processor

Images, action and color are brought to new life to instantly enhance picture quality through LG's best 4K processor including 4-step noise reduction — empowered by AI at its core.

#### Dolby Vision<sup>™</sup> & Dolby Atmos<sup>®</sup>

Advanced image and sound technologies inspired by the cinema optimize picture and sound for a spectacular, more lifelike experience in every scene - it's ultravivid picture and powerful, moving audio that seems to flow all around you.\*
