# Flowt

KING KOIL MATTRESS CO.

A new dimension of rest – our spiral gel design supports, adapts, lifts and cools – delivering weightless comfort while you sleep. Elevate your dreams

## Free Airflow

Air flows freely in all directions, helping heat escape and fresh air circulate – so you stay refreshed all night long.

## Progressive Spiral Design

Our spiral design gently flexes to support every movement, easing pressure points and adapting to your body in real time.

## Adaptive Cooling

Advanced thermal gel technology absorbs and releases heat evenly, keeping your mattress balanced and cool.
