DENON

"Mobile Elite" In-Ear Headphones with 3-Button Remote + Microphone

The AH-C560R in-ear headphone has a 3-button remote controller as well as a built-in microphone. The controller provides Play and Pause functions as well as Forward and Reverse in addition to Volume Up and Down. The controller and microphone together let you answer calls on your iPhone®, and the microphone can also be used to record voice memos on select iPod® models that support that function.

The AH-C560R features a host of exclusive Denon technologies for optimum sound quality and superior comfort. The earpiece housings are constructed of a combination of precision machined aluminum alloy and a sophisticated resin compound. Together, these materials provide resonance-free playback for the most naturally balanced sound. The large 11.5mm diaphragms are driven by ultra high efficiency Neodymium magnetic motor structures for dynamic sound as well as low power consumption. Included are four sets of soft, compliant ear pads for optimum comfort and superior isolation from external noise.

Features

New features

• 3-button Remote + Microphone

This convenient remote controller lets you...

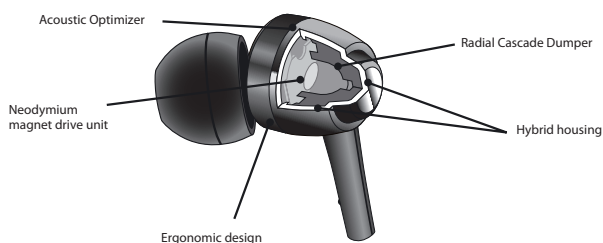

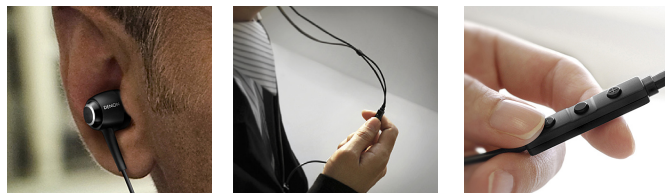

- adjust volume with the + and - buttons,
- use the center button to operate various music and video controls (Play / Pause / Forward / Reverse),
- record voice memos (on select iPod® models that support voice memos)

• Radial Cascade Damper reduces cable transmitted vibration noise

• Hybrid Metal Housing (machined aluminum alloy + resin compound), suppresses resonances for optimum sound quality

• Featuring Comply™ Foam Tips for supreme comfort and maximum noise isolation

- Acoustic Optimizer achieves naturally balanced sound by providing balanced ambient air pressure on both sides of the diaphragm
- Ergonomic design, for a snug fit in the ear and maximum comfort
- Dynamic sound from powerful 11.5mm Neodymium magnet drive units
- Canal-type in-ear headphone provides high isolation from external ambient noise and provides exceptional detail and clarity even at low listening levels
- Cables of equal length for left and right channels, to maximize sound quality
- 1.3m (4¼ feet) Oxygen Free Copper cable
- Comes with cable clip to keep the cable from tangling or fluttering
- Branch point adjustment function with slider, to take up slack between the branch point and ear pieces
- Gold-plated stereo 3.5mm mini-plug
- Convenient soft shell carrying case
- Comes with 4 sizes of ear pieces for optimum fit and maximum comfort

Main Specifications

Type	Dynamic type
Drive units	Ø 11.5mm Neodymium magnet
Input Impedance	16 Ω/ohms
Sensitivity	110 dB/mW
Maximum Input	250 mW
Frequency Response	5 - 24,000 Hz
Weight	5.2 g (not including cable)
Cable Length	1.3 meter/4¼ feet
Plug	ø 3.5mm gold-plated stereo mini plug
Accessories	Carrying case x 1, Cable clip x 1, Ear pieces (S/M/L size) x 1 (2 pcs/1 size), Foam ear pieces x 1 (2 pcs/1 size)

Remote and microphone are supported only by iPhone 3GS, iPod nano(4th), iPod classic (120GB) and iPod touch (2nd). The remote is supported by iPod shuffle (3rd). Audio is supported by all iPhone, iPod models. Requires latest software.
