## Bardo Outdoor Side Table Deep Bronze

Because every sofa needs a sidekick. Bardo brings subtle presence in all the right ways. Its soft curves and solid aluminum form strike a clean, sculptural silhouette, while the textured finish adds depth and distinction. There's a quiet confidence to its shape—minimal, grounded, and designed to stand out without showing off.

- **Sculpted Solid Cast Aluminum:** The piece is crafted from a single, solid piece of cast aluminum, featuring a modern, exemplified curve formed from a meticulously poured mold.
- **Artful Imperfections, Artisanal Feel:** The casting technique creates beautiful imperfections, with highs and lows that add depth and character to the surface.
- **Blackened Bronze Finish:** A deep, blackened bronze finish enhances the overall form and feel of the piece, accentuating its curves and texture.
