**Product Description:** Modern, large and aesthetically-dreamy, the Myrtle Sectional is everything we are loving all at once. Featuring a rich neutral color palette in a subtle plaid boucle on a platform wood base, this 3-piece sectional is chefs kiss to the living room. Inspired by life in a different time & crafted for today's modern consumer, the Myrtle is sure to make any room it's styled in one you never want to leave.

**Finish:** Choice of Natural Oak, Ebony, Perk & Toffee finishes

**Features:** Tight seat and back

Wood plyth base

Low profile modern styling

**Material:** Fabric

**Finish Construction:** M utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Our M upholstered furniture collection pieces are benchmade from sustainably sourced wood and upholstered start to finish by our skilled craftspeople in both North Carolina and Virginia. Every piece has been thoughtfully designed for today's modern lifestyle. Frames are constructed of sustainably certified kiln dried engineered hardwood. Frame parts are joined with precision cut interlocking joints that are glued, stapled to reduce movement, twisting and warping. Frames have cornerblocks that are glued and screwed at stress points, especially on seat rails and other high stress areas. Depending on rail thickness, frames may be of a hybrid construction, adding a solid hardwood inner frame to give seat rails additional support.

**Seat Back:** Tight back

**Seat:** Innerspring - High Resiliency plant-based foam core, with coil spring insert for added comfort and longevity. Wrapped with polyester fiber and

enclosed in down proof ticking.

**Fabric:** Choice of over 130 fabrics including a wide selection of performance fabrics

**Padding:** Padded outside arms and back for smoother surface and neater appearance.

**Seating Construction:** Seat bases are supported by a sinuous arc metal spring construction. Our springs are made from partially recycled content. Due to the design requirements of some styles, rubberized webbing may be used instead of springs. Double rows of springs are used at the corners for extra support. Seat bases are insulated with polypropylene fabric and are padded with synthetic fiber.
